SUBJECT INDEX

ABATTOIR survey of mammary gland lesions in sows with special reference to the bacterial flora of mammary abscesses, 639
Abscesses, mammary, an abattoir survey of mammary gland lesions in sows with special reference to the bacterial flora of, 639
Antiglobulin test for the diagnosis of *Salmonella dublin* infection of cattle, a study of the, 53

BACTERIOLOGICAL and serological study of bovine brucellae from livestock investigation and breeding centres in Nigeria, 256
BCG vaccine in Malawi, field experiment with, 88
Behaviour, animal, and duration: carbon monoxide and carbon dioxide euthanasia of cats, 274
Biochemical and serolgical studies of *Pasteurella multocida* isolated from cattle and buffaloes in Malaysia, 361
Blood, relationships between haemoglobin concentration, packed cell volume and plasma protein concentration in dehydration, 166
Book reviews:
  Advances in veterinary science and comparative medicine vol. 23 (C. A. Brandly, C. E. Cornelius, B. I. Osburn & R. D. Schult), 645
  A guide to canine orthopaedic surgery (H. R. Denny), 431
  An atlas of surgical approaches to the bones of the horse (D. W. Milne & A. S. Turner), 542
  An atlas of veterinary surgery (J. Hickman & R. Walker), 315
  Current veterinary therapy VII: small animal practice (R. W. Kirk), 644
  Entomology in human and animal health (R. F. Harwood & M. T. James), 217
  Essentials of canine and feline electrocardiography (L. P. Tilley), 314
  Farm animal behaviour (A. F. Fraser), 314
  Fertility and infertility in domestic animals (J. A. Laing), 102
  Miller's guide to the dissection of the dog (H. E. Evans & A. de Lanhunta), 218
  Parasitology for veterinarians (J. R. Georgi), 102
  Physiological basis of small animal medicine (A. T. Yoxall & J. F. R. Hird), 646
  Principles of veterinary radiography (S. W. Douglas & H. D. Williamson), 647
  Rabies and wild life: a biologist's perspective (D. W. McDonald), 433
  Radiographic positioning of small animals (G. D. Ryan), 648
  Reproduction in farm animals (E. S. E. Hafez), 541
  Scientific foundations in veterinary medicine (A. T. Phillipson), 542
  Surgery of traumatized skin: management and reconstruction in the dog and cat (F. T. Swain), 647
  The occurrence of tumours in domestic animals (W. A. Priester & F. W. McKay), 644
  The ovary. A correlation of stucture and function in mammals (H. Petters & K. P. McNatty), 103
  The world atlas of horses and ponies (P. Churchill), 103
  Tick-borne diseases and their vectors (J. K. H. Wilde), 432
  Veterinary clinical pathology (E. H. Coles), 218
  Veterinary gastroenterology (N. V. Anderson), 649
Brucella abortus, serolgic profile for a cow experimentally infected with, 520
Brucellae, serological and bacteriological study of bovine, from livestock and breeding centres on Nigeria, 256
Buffalo:
  swamp, a herd test for non-pregnancy using plasma progesterone levels on the selection of, for oestrus synchronization, 173
  the water: a review, 8
  biochemical and serological studies of *Pasteurella multocida* isolated from cattle and, in Malaysia, 361

CALVES:
  cell-mediated immunoprotection in, immunized with rough *Salmonella dublin*, 421
  feeding of stored bovine colostrum to, 268
Camel, functional changes in the pregnant, with special reference to foetal growth, 527
Campylobacter species in milk, the effect of pasteurization on the survival of, 578
Carbon monoxide and carbon dioxide euthanasia of cats: duration and animal behaviour, 274
Cats:
  carbon monoxide and carbon dioxide euthanasia of: duration and animal behaviour, 274
  preliminary study of the possible application of gastrocystoplasty in selected cases of feline urolithiasis, 501
Cattle:
  atypical milk progesterone profiles in two post-partum dairy cows, 188
  biochemical and serological studies of *Pasteurella multocida* isolated from, and buffaloes in Malaysia, 361
  colostrum and serum immunoglobulin levels in Jersey, 279
  comparison of first maxillary molar eruption in Friesian steers and heifers, 31
  dapsone residues in milk and the organs of cows after intramammary and intrauterine administration, 388
  diurnal variations of oestradiol-17β in milk of cross-bred cows during oestrous cycle and early pregnancy,
  effectiveness of long-acting terramycin injectable solution in the treatment of streptothricosis in, 585
  feeding of stored bovine colostrum to calves, 268
  immunization of Friesian, against *Theileria annulata* by the infection-treatment method, 416
  lameness in, 113
  livestock improvement and disease in dairy, 209
  milk fever, hypomagnesaemia and the 'downer cow' syndrome, 435
  pesticide usage on beef and dairy, in Scotland 1977/78, 626
  progesterone in defatted milk: its relation to insemination and pregnancy in normal cows as compared with cows on problem farms and individual problem animals, 78
  serologic profile for a cow experimentally infected with *Brucella abortus*, 520
  serological and bacteriological study of bovine brucellae from livestock investigation and breeding centres in Nigeria, 256
  serological response of, sheep, goats and pigs to type 0 vaccine: the 1975 foot-and-mouth disease epidemic in Malta III, 507
  serological survey of *Toxoplasma gondii* in Nigerian: a preliminary report, 485
  serum and skin surface antibody responses to intradermal vaccination of, with *Dermatophilus congolensis*, 601
  Streptococcus uberis: a review of its role as a causative organism of bovine mastitis:
    I characteristics of the organism, 36
    II control of infection, 160
  study of the antiglobulin test for the diagnosis of *Salmonella dublin* infection of, 53
  time of detection of oestrone sulphate in milk and the diagnosis of pregnancy in cows, 71
  treatment of a case of bovine hydrops allantois with cloprostenol, 575
Cell-mediated immunoprotection in calves immunized with rough *Salmonella dublin*, 421
Chlamydia ovis, immunoperoxidase detection of, in experimentally-infected cell culture, 634
Cloprostenol, the treatment of a case of bovine hydrops allantois with, 575
Clostridial infections, 443
Colostrum:
  and serum immunoglobulin levels in Jersey cattle, 279
  feeding of stored bovine, to calves, 268
Corynebacterium kutscheri infection in wild voles (*Microtus agrestis*), 67
Cyprus:
  Q fever in: a short review, 470
  the control of enzootic abortion in sheep and goats in, 411

DAPSONE residues in milk and the organs of cows after intramammary and intrauterine administration, 388
Deer in the United Kingdom, mycobacterial infections in various species of, 60
Dehydration, the relationships between blood haemoglobin concentration packed cell volume and plasma protein concentration in, 166
Dermatology, investigative techniques in small animal clinical, 133
Dermatophilus congolensis:
  resistance to, and the effect of vitamin supplementation on the growth of the organism, 196
  serum and skin surface antibody responses to intradermal vaccination of cattle with, 601
Diagnosing wrong parentage, freemartins, translocations and mannosidosis, 2
Diarrhoea:
  in pigs, isolation of *Yersinia pseudotuberculosis* from, 95
  piglet, 651
Disease in dairy cattle, livestock improvement and, 209
'Downer cow' syndrome, milk fever, hypomagnesaemia and the, 435

ELECTROCARDIOGRAM of the sheep, effect of xylazine on the, 590
Enzootic abortion, the control of, in sheep and goats in Cyprus, 411
Equine infectious anaemia (swamp fever), prevalence of, in Guyana, 538
Euthanasia, carbon monoxide and carbon dioxide, of cats: duration and animal behaviour, 274

FASCIOLIASIS, disease foci of, a three-year study of *Lymnea truncatula* habitats, 398
Fat levels in rabbit diets, 203
Fertility, hormone assays in reproduction and, 561
Foetal growth, functional changes in the pregnant camel with special reference to, 527
Foot-and-mouth disease epidemic, the 1975, in Malta:
I experimental studies with the causal virus strain 0_1 Malta, 300
II the detection of carriers and inapparent infection, 381
III serological response of cattle, sheep, goats and pigs to type 0 vaccine, 507
IV analysis of the epidemic,
Foot-and-mouth disease, thoughts on the epidemiology, 313
Freemartins, translocations and mannosidosis, diagnosing wrong parentage, 2

GASTROCYSTOPLASTY, a preliminary study of the possible application of, in selected cases of feline urolithiasis, 501
Genetic aspects of mesangiocapillary glomerulonephritis in Finnish sheep, 368
George Fleming prize, 248
Goats:
serological response of cattle, sheep, and pigs to type 0 vaccine: the 1975 foot-and-mouth disease epidemic in Malta III, 507
the control of enzootic abortion in sheep and, in Cyprus, 411
Gonadotrophin levels, reproductive tract and pituitary gland, effects on: some aspects of the use of the growth promoter zeranol in ewe lambs retained for breeding II, 621
Growth characteristics, and some muscle, of pigs susceptible to stress, 374
Guyana, prevalence of equine infectious anaemia (swamp fever) in, 538

HAEMOGLOBIN concentration, the relationships between blood, packed cell volume and plasma protein concentration in dehydration, 166
Hormone assays in reproduction and fertility, 561
Horses, prevalence of equine infectious anaemia (swamp fever) in Guyana, 538
Hydrops allantois, the treatment of a case of bovine, with cloprostenol, 575
Hypomagnesaemia, milk fever and the 'downer cow' syndrome, 435

IMMUNIZATION of Friesian cattle against *Theileria annulata* by the infection-treatment method, 416
Immunoglobulin, serum, and colostrum levels, in Jersey cattle, 279
Immunoperoxidase, detection of *Chlamydia ovis* in experimentally-infected cell culture, 634
Immunoprotection, cell-mediated, in calves immunized with rough *Salmonella dublin*, 421
Insemination and pregnancy in normal cows as compared with cows on problem farms and individual problem animals, its relation to: progesterone in defatted milk, 78

LAMENESS in cattle, 113
Livestock improvement and disease in dairy cattle, 209
Liveweight gain and puberty, effect on, some aspects of the use of the growth promoter zeranol in ewe lambs retained for breeding I, 513
Lymnea truncatula habitats, a three-year study of, disease foci of fascioliasis, 398

MALAWI, field experiment with BCG vaccine in, 88
Malaysia, biochemical and serological studies of *Pasteurella multocida* isolated from cattle and buffaloes in, 361
Malta, the 1975 foot-and-mouth disease epidemic in:
I experimental studies with the causal virus strain 0_1 Malta, 300
II the detection of carriers and inapparent infection, 381
III serological response of cattle, sheep, goats and pigs to type 0 vaccine, 507
IV analysis of the epidemic,
Mammary abscesses, an abattoir survey of mammary gland lesions in sows with special reference to the bacterial flora of, 639
Mammary, intra-, and intrauterine administration, dapsone residues in milk and the organs of cows after, 388
Mannosidosis, diagnosing wrong parentage, free martins, translocations and, 2
Mare, oestrus and pregnancy diagnosis by milk progesterone assay in the, 478
Mastitis:
Streptococcus uberis: a review of its role as a causative organism of bovine:
I characteristics of the organism, 36
II control of infection, 160
the effect of suckling on the course of experiment staphylococcal, in the mouse, 489
Mesangiocapillary glomerulonephritis, genetic aspects of, in Finnish sheep, 368
Milk:
atypical progesterone profiles in two post-partum dairy cows, 188
dapsone residues in, and the organs of cows after intra-mammary and intrauterine administration. 388
diurnal variations of oestradiol-17β in, of cross-bred cows during oestrous cycle and early pregnancy, 596
effect of pasteurization on the survival of *Campylobacter* species in, 578
fever, hypomagnesaemia and the 'downer cow' syndrome, 435
method to reduce non-specific binding in whole milk pregesterone radioimmunoassays, 17
oestrus and pregnancy diagnosis by, progesterone assay in the mare, 478
progesterone in defatted: its relation to insemination and pregnancy in normal cows as compared with cows on problem farms and individual problem animals, 78
time of detection of oestrone sulphate in, and the diagnosis of pregnancy in cows, 71
Miscellany, 155, 248, 358, 464, 572
Modern diagnostic methods in practice:
aids to diagnosis of virological diseases, 455
blood chemistry, the use of, in monitoring the health of farm livestock, 241
diagnosing wrong parentage, freemartins, translocations and mannosidosis, 2
hormone assays in reproduction and fertility, 561
investigative techniques in small animal clinical dermatology, 133
radiology in veterinary science, 349
Molar eruption in Friesian steers and heifers, a comparison of first maxillary, 31
Mouse, the effect of suckling on the course of experimental staphylococcal mastitis in, 489
Muscle, some, and growth characteristics of pigs susceptible to stress, 374
Mycobacterial infections in vaious species of deer in the United Kingdom, 60

NIGERIA, serological and bacteriological study of bovine brucellae from livestock investigation and breeding centres in, 256
Nigerian cattle, serological survey of *Toxoplasma gondii* in: a preliminary report, 485
Non-pregnancy, a herd test for, using plasma progesterone levels in the selection of swamp buffalo for oestrus synchronization, 173
Nutrition, poor, in the pregnant ewe, radiographic study of the changes in skeletal growth and development of the foetus caused by, 176

OESTRADIOL-17β in milk, diurnal variations of, of cross-bred cows during oestrous cycle and early pregnancy, 596
Oestrogenic effects, possible, of feeding soyameal to prepuberal gilts, 283
Oestrone sulphate in milk, the time of detection of, and the diagnosis of pregnancy in cows, 71
Oestrous cycle, diurnal variations of oestradiol-17β in milk of cross-bred cows during, and early pregnancy, 596
Oestrus and pregnancy diagnosis by milk progesterone assay in the mare, 478
Oestrus synchronization, a herd test for non-pregnancy using plasma progesterone levels in the selection of swamp buffalo for, 173
Ostertagia circumcincta, changes in the worm burden of lambs under continuous infection with, 192
Ovarian follicles, cystic, relationship of prostaglandin F2α to, in the sow, 289

PACKED cell volume, the relationships between blood haemoglobin concentration, and plasma protein concentration in dehydration, 166
Pasteurella multocida, biochemical and serological studies of, isolated from cattle and buffaloes in Malaysia, 361
Pasteurization, the effect of, on the survival of *Campylobacter* species in milk, 578
Pesticide usage on beef and dairy cattle in Scotland 1977/78, 626
Pigs:
accidental introduction of porcine parvovirus and talfan virus into a group of minimal disease gilts and their effects on reproduction, 262
an abattoir survey of mammary gland lesions in sows with special reference to the bacterial flora of mammary abscesses, 639
isolation of *Yersinia pseudotuberculosis* from diarrhoea in, 95
methods of approach to the diagnosis and resolution of health problems, 337
piglet diarrhoea, 651
possible oestrogenic effects of feeding soyameal to prepuberal gilts, 283
relationship of prostaglandin F2α to cystic ovarian follicles in the sow, 289

serological response of cattle, sheep, goats and, to type 0 vaccine: the 1975 foot-and-mouth disease epidemic in Malta III, 507
some muscle and growth characteristics of, susceptible to stress, 374
Pituitary gland, reproductive tract and gonadotrophin levels, effects on: some aspects of the use of the growth promoter zeranol in ewe lambs retained for breeding II, 621
Plasma biochemical parameters in castrated rams on testosterone, 250
Plasma protein concentration, the relationships between blood haemoglobin concentration, packed cell volume and, in dehydration, 166
Poisoned, has it been? 317
Porcine parvovirus, accidental introduction of, and talfan virus into a group of minimal disease gilts and their effects on reproduction, 262
Poultry, diseases of, 546
Pregnancy:
and oestrus diagnosis, by milk progesterone assay in the mare, 478
early, diurnal variations of oestradiol-17β in milk of cross-bred cows during oestrous cycle and, 596
in cows, the diagnosis of, and the time of detection of oestrone sulphate in milk, 71
in normal cows as compared with cows on problem farms and individual problem animals, its relation to insemination and: progesterone in defatted milk, 78
Pregnant camel, functional changes in the, with special reference to foetal growth, 527
Progesterone:
in defatted milk: its relation to insemination and pregnancy in normal cows as compared with cows on problem farms and individual problem animals, 78
levels in the selection of swamp buffalo for oestrus synchronization, a herd test for non-pregnancy using plasma 173
method to reduce non-specific binding in whole milk radioimmunoassays, 17
milk, assay, oestrus and pregnancy diagnosis by, in the mare, 478
profiles, atypical milk, in two post-partum dairy cows, 188
Prostaglandin F2α, relationship of, to cystic ovarian follicles in the sow, 289
Puberty, effect on liveweight gain and, some aspects of the use of the growth promoter zeranol in ewe lambs retained for breeding I, 513

Q FEVER in Cyprus: a short review, 470

RABBIT diets, fat levels in, 203
Radioimmunoassays, a method to reduce non-specific binding in whole milk progesterone, 17
Radiology in veterinary science, 349
Radiographic study of the changes in skeletal growth and development of the foetus caused by poor nutrition in the pregnant ewe, 176
Reproduction and fertility, hormone assays in, 561
Reproductive tract, pituitary gland and gonadotrophin levels, effects on: some aspects of the use of the growth promoter zeranol in ewe lambs retained for breeding II,

Salmonella dublin:
cell-mediated immunoprotection in calves immunized with rough, 421
infection of cattle, a study of the antiglobulin test for the diagnosis of, 53
Saudi Arabian Veterinary School, 97
Scotland, pesticide usage on beef and dairy cattle in, 1977/78, 626
Scrapie, 105
Serologic profile for a cow experimentally infected with *Brucella abortus*, 520
Serological and bacteriological study of bovine brucellae from livestock investigation and breeding centres in Nigeria, 256
Serological and biochemical studies of *Pasteurella multocida* isolated from cattle and buffaloes in Malaysia, 361
Serological response of cattle, sheep, goats and pigs to type 0 vaccine: the foot-and-mouth disease epidemic in Malta III, 507
Serological survey of *Toxoplasma gondii* in Nigerian cattle: a preliminary report, 485
Serum and skin surface antibody responses to intradermal vaccination of cattle with *Dermatophilus congolensis*, 601
Sheep: 208
changes in the worm burden of lambs under continuous infection with *Ostertagia circumcincta*, 192
control of enzootic abortion in, and goats in Cyprus, 411
effect of xylazine on the electrocardiogram of the, 590
genetic aspects of mesangiocapillary glomerulonephritis in Finnish, 368
plasma biochemical parameters in castrated rams on testosterone, 250
radiographic study of the changes in skeletal growth and development of the foetus caused by poor nutrition in the pregnant ewe, 176
serological response of cattle, goats, and pigs to type 0 vaccine: the 1975 foot-and-mouth disease epidemic in Malta III, 507
some aspects of the use of the growth promoter zeranol in ewe lambs retained for breeding:
I effect on liveweight gain and puberty, 513
II effects on reproductive tract, pituitary gland and gonadotrophin levels, 621
tumours in North East Yorkshire II: experimental production of tumours, 21
Skeletal growth, a radiographic study of the changes in, and development of the foetus caused by poor nutrition in the pregnant ewe, 176
Skin surface and serum antibody responses to intradermal vaccination of cattle with *Dermatophilus congolensis*, 601
Small animal clinical dermatology, investigative techniques in, 133
Soyameal, possible oestrogenic effects of feeding, to prepuberal gilts, 283
Staphylococcal mastitis, the effect of suckling on the course of experimental, in the mouse, 489
Streptococcus uberis: a review of its role as a causative organism of bovine mastitis:
I characteristics of the organism, 36
II control of infection, 160
Streptothricosis in cattle, effectiveness of long-acting terramycin injectable solution in the treatment of, 585
Stress, some muscle and growth characteristics of pigs susceptible to, 374
Suckling, the effect of, on the course of experimental staphylococcal mastitis in the mouse, 489
Swamp fever, prevalence of equine infectious anaemia in Guyana, 538

TALFAN virus, accidental introduction of porcine parvovirus and, into a group of minimal disease gilts and their effects on reproduction, 262
Terramycin, effectiveness of long-acting, injectable solution in the treatment of streptothricosis in cattle, 585
Testosterone, plasma biochemical parameters in castrated rams on, 250
Theileria annulata, immunization of Friesian cattle against, by the infection-treatment method, 416
Tick-borne diseases, 221
Toxoplasma gondii, serological survey of, in Nigerian cattle: a preliminary report, 485
Translocations and mannosidosis, diagnosing wrong parentage, freemartins, 2
Tumors, sheep, in North East Yorkshire II: Experimental production of, 21

UROLITHIASIS, a preliminary study of the possible application of gastrocystoplasty in selected cases of feline, 501
Uterine, intra-, and intramammary administration, dapsone residues in milk and the organs of cows after, 388

VETERINARY School, Saudi Arabian, 97
Veterinary science, radiology in, 349
Virological disease, aids to diagnosis of, 455
Vitamin supplementation, the effect of, on the growth of the organism and resistance to *Dermatophilus congolensis*, 196
Voles (*Microstus agrestis*), *Corynebacterium kutscheri* infection in wild, 67

WELLCOME veterinary series:
clostridial infections, 443
diseases of poultry, 546
has it been poisoned? 317
lameness in cattle, 113
methods of approach to the diagnosis and resolution of pig health problems, 337
milk fever, hypomagnesaemia and the 'downer cow' syndrome, 435
piglet diarrhoea, 651
radiology in veterinary science, 349
scrapie, 105
tick-borne diseases, 221
Worm burden, changes in the, of lambs under continuous infection with *Ostertagia circumcincta*, 192
